RGB WELL LIGHTS
12FX-SLV-SB3120

Product Description

Use this in-ground RGB LED well light for landscape lighting, architectural lighting, garden lighting, tree uplighting, submerged pond lighting, and more. The well light has 9 LEDs and automatically cycles through various color-changing fade and flash patterns. Construction consists of a waterproof stainless steel housing with ground-mounting tube and a tempered glass lens. A 3-7/8" diameter hole is required for mounting. The LED well light consumes just 12.6 watts of power and has 12V AC/DC operation. Can be used in an existing low-voltage landscape wiring system or added to a G-LUX wiring system with a G-LUX-MPT pigtail power cable.

Product Dimensions

Features & Benefits

- » Color Changing and Flashing Patterns
- » Waterproof
- » G-LUX wiring system

Specifications

- » Material: Stainless Steel
- » Beam Angle: 45°
- » Current Draw: 1050mA
- » LED Quantity: 9
- » Connection Type: Pigtail
- » Finish: Silver
- » LED Color: RGB
- » LED Type: 1 Watt Edison
- » Total Power Consumption: 12.6 Watts
- » Volts: 12V AC/DC
- » Wire Length: 22in (55.9cm)
- » Dimmable: No
- » Water Resistance: Waterproof IP67
